Allowable Subject Matter

1. Due to the amendment to the claims to overcome the objections in the action mailed December 14, 2004, **claims 3-10** are allowed.

2. The following is an examiner's statement of reasons for allowance:

As to **claim 3**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in an optical position deviation detecting apparatus "wherein said field stop position adjustment mechanism adjusts the field stop position on the basis of an asymmetric focus characteristic," in combination with the rest of the limitations of **claims 3, 4, 6, 7**.

As to **claim 5**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in an optical position deviation detecting apparatus "wherein said field stop position adjustment mechanism adjusts the field stop position on the basis of an asymmetric focus characteristic," in combination with the rest of the limitations of **claim 5**.

As to **claim 8**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in an optical position deviation detecting apparatus "wherein said field stop position is so adjusted that at least one set of areas which are symmetric with respect to the center of the image field is selected and an amount of rotationally asymmetric aberration for every selected area is symmetric" in combination with the rest of the limitations of **claim 8**.

As to **claim 9**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in an optical adjustment method "adjusting a position of a field stop of the irradiation optical system so that the asymmetric focus characteristic of said line and space mark pattern image exhibits a characteristic that is symmetric" in combination with the rest of the limitations of **claim 9**.

Art Unit: 2877

As to **claim 10**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in an optical adjustment method “adjusting a position of a field stop on the basis of an asymmetric focus characteristic curve” in combination with the rest of the limitations of **claim 10**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Fax/Telephone Numbers

If the applicant wishes to send a fax dealing with either a proposed amendment or a discussion with a phone interview, then the fax should:

- 1) Contain either a statement “DRAFT” or “PROPOSED AMENDMENT” on the fax cover sheet; and
- 2) Should be unsigned by the attorney or agent.

This will ensure that it will not be entered into the case and will be forwarded to the examiner as quickly as possible.

Papers related to the application may be submitted to Group 2800 by Fax transmission. Papers should be faxed to Group 2800 via the PTO Fax machine located in Crystal Plaza 4. The form of such papers must conform to the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CP4 Fax Machine number is: (703) 872-9306
